Warning: refrigerator accessories are not dishwasher-resistant.

Controls

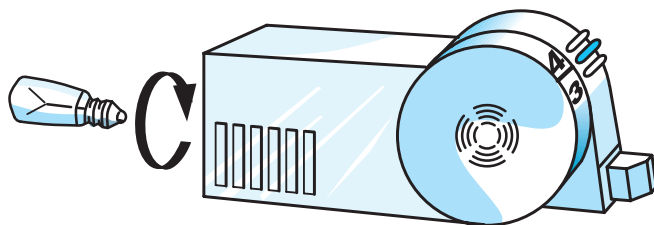

- A. Thermostat knob
- B. Light switch
- C. Thermostat setting index
- D. Bulb (15 W max.)

Thermostat set to ●: refrigerator and lights off
 Thermostat set to **1**: **warmest** internal temperature
 Thermostat set to **7**: **coldest** internal temperature

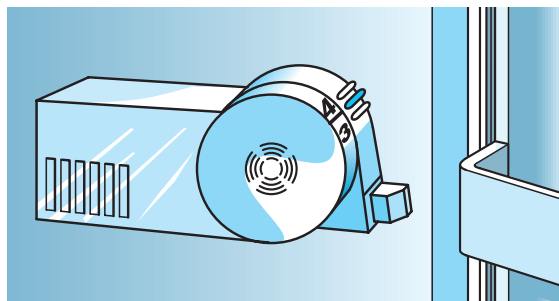

It is advisable to set the thermostat to positions 2-3

Note: external air temperature, the frequency with which the door is opened and the position of the appliance may affect the internal temperature of the refrigerator. Set the thermostat accordingly.

Removing the light

Undo by turning anticlockwise, as shown in the illustration.

The door tray must be positioned as indicated to operate the interior light button.
